

Project Management for Technical Teams

Length: One Day

Summary: You will identify methods of effectively managing small- to medium-sized projects and achieving their stated objectives.

Course Objectives:

Upon successful completion of this course, students will be able to:

- Plan the project and its parameters, including its scope, requirements, resources, and constraints.
 - Implement the project plan, which includes putting the work of the project in motion and delegating tasks, and then monitoring the progress of the project and managing changes as they arise.
-

Course Content

PLANNING THE PROJECT
